

MIOSHA Construction 10-Hour Course

1 Who Should Attend . . .

This program is a must for anyone concerned about health and safety on the job including:

- ▶ Managers concerned about liability and workers' compensation costs.
- ▶ Employees who want to learn proper techniques for protecting their safety and health at work.
- ▶ Business owners who want to learn about compliance with Michigan Occupational Safety and Health Administration (MIOSHA).

2 MIOSHA Training Institute

MIOSHA Consultation Education and Training (CET) Division and Macomb Community College (MCC) have developed the MIOSHA Training Institute (MTI) through a formal alliance. The MTI introduced an Assessment-Based Certificate program, effective October 1, 2007. This course is a MTI Level One course. The certificate program offers participants an opportunity to be recognized for their educational efforts and increased technical expertise. Courses are offered throughout the state in sponsorship with other M-TECSM facilities, community colleges, and safety and health organizations. To learn more about the certificate program, log-on to the CET Division website at www.michigan.gov/mti.

3 What You'll Learn . . .

This 10-hour program presents an overview of MIOSHA regulations for the construction industry. Detailed information is presented to enable the participant to develop an accident prevention plan as required by Rule 114 of MIOSHA Construction Safety Standard Part 1, General Rules. An overview of MIOSHA inspection procedures is presented as well as the most frequently cited MIOSHA violations in the construction industry. Participants gain detailed information regarding construction and health standards relative to the industry. Emphasis will be placed on recognizing hazards and describing safe work practices to eliminate or control those hazards. **Students will receive both MIOSHA and OSHA 10-hour cards upon successful completion of the class.**

Agenda

- ▶ Introduction to OSHA/MIOSHA
- ▶ Part 1 General Rules
- ▶ Part 6 Personal Protective Equipment
- ▶ Part 8 Handling & Storage of Materials

Facilitator

Jason Griffin was appointed to MIOSHA's Consultation Education and Training (CET) Division in 2010 and provides construction safety services for the mideast counties of Michigan. Jason has several years of experience in heavy construction. His experiences as a project and site safety manager have given him a unique perspective to managing safety in dynamic work environments. Jason has experience with multi-employer worksites and has learned first hand that awareness, extensive training, and a commitment to safety are essential to worker safety in complex construction environments.

Jason has a Bachelors degree in Business Administration from Davenport University. Jason's primary specialty is the management of work activities and safe work practices necessary to succeed in multi-employer work environments. Jason provides training and consultation to assist companies in the development of comprehensive safety programs and adherence to MIOSHA standards.

Presenters: Bryan Renaud and Patrick Sullivan, Construction Safety Consultants; and Curtis Johnson, Industrial Hygienist; MIOSHA-CET Division
